INTERNATIONAL ASSOCIATION FOR
STEINER/WALDORF EARLY CHILDHOOD EDUCATION

will be holding the

INTERNATIONAL CONGRESS ON WALDORF CHILDHOOD EDUCATION IN BRAZIL

“Childhood as an impulse towards the whole development of the Human Being”

With emphasis on two aspects of movement:

The first aspect is the importance of the child's movement for its whole development since our modern lifestyle leads children to inertia. We will focus on the quality of children's current movements. What do the children tell us through their movements? According to Friedrich Schiller: “Man only plays when in the full meaning of the word he is a man, and he is only completely a man when he plays”.

The second aspect is the internal movement of the educator. How do we become able through images of stories to seek the strengths that propel our daily practice? According to Rudolf Steiner: “What is presented most of the time as a pedagogical guideline drains the educator's soul, taking the adult to face difficulties in the search for the self-development that would give him hope and comfort in the difficult times of life and help him to face them as a process of development”.

Location - Rudolf Steiner Waldorf School - São Paulo - SP - Brazil www.ewrs.com.br

Date - July 4 to 8, 2010
